

*Minimising waste.
maximising value*

Materials and
logistics management

SAFETY EXCELLENCE → SERVICE EXCELLENCE → SUSTAINABILITY

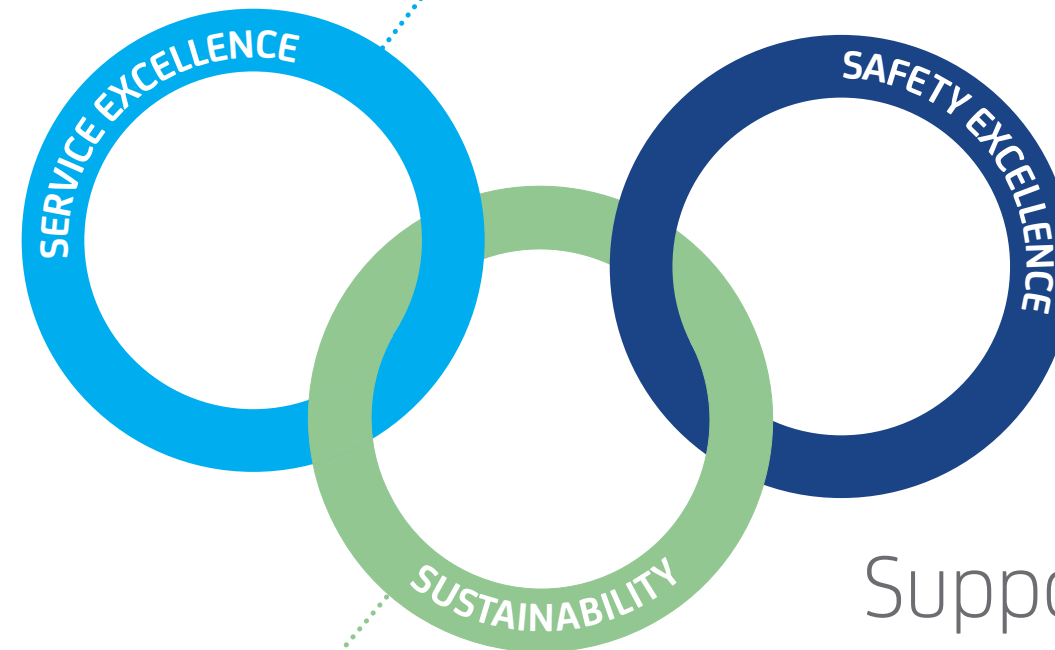

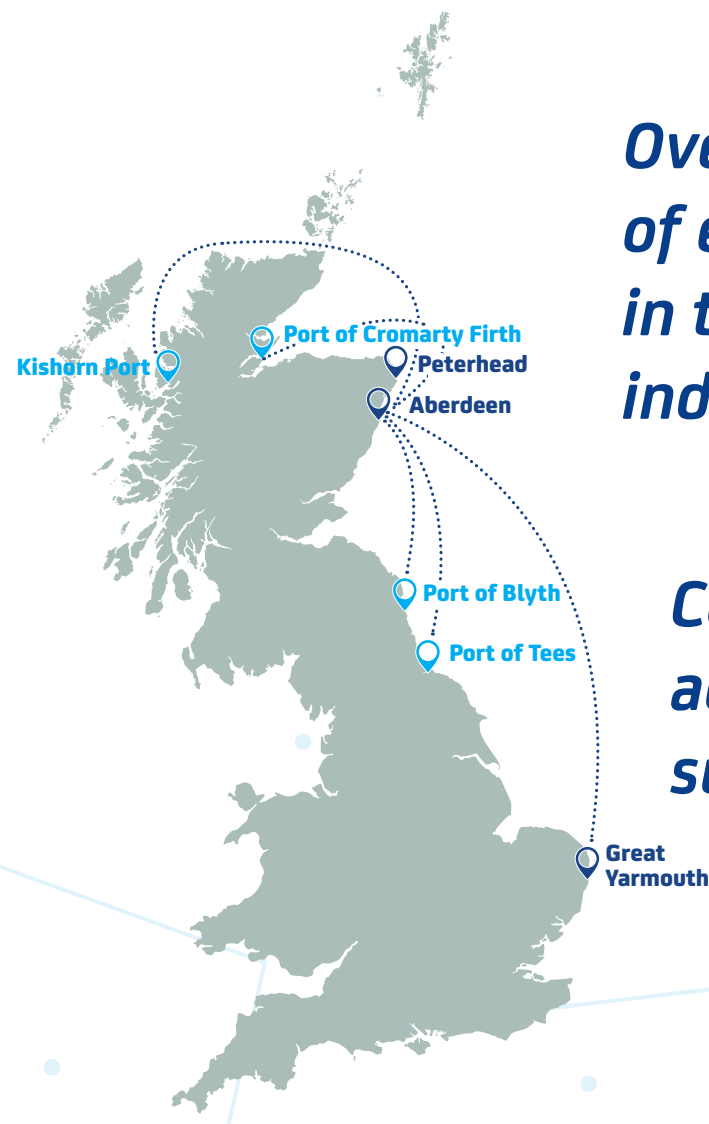

Safety Excellence, Service Excellence and Sustainability are our Fundamental Obsessions

Through these obsessions we deliver high value for our customers and employees, and are responsible leaders of our human, financial and natural capital.

Responsibly managing our business for the long-term benefit of all stakeholders and the planet.

**Over a decade
of experience
in the Decom
industry.**

**Collaborating
across the UK
supply chain.**

Delivering measurable service performance recognised as industry leading.

Every moment, of every day we ensure safety is our obsessive priority.

Supporting all aspects of your decommissioning projects.

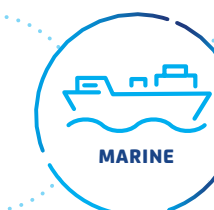

Managing and executing your physical supply chain.

Delivering transformational change across your materials operations.

Providing cost-effective and reliable supply and storage solutions.

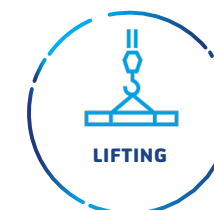

Enhancing the efficiency of your marine operations while mitigating risk and cost.

Providing complete waste compliance and assurance.

Descaling, Decontamination.

Ensuring the safety of your lifting operations.

Setting the standard from ship to shore.
