

LEI Module 1

General Lifting Equipment

Practical Training Course

5 Day

Overview: Designed to teach delegates the technical aspects of proof load testing, thorough examination of lifting accessories and manual appliances. The course also covers the preparation of certificates and a series of practical assessments. The successful completion of this programme will provide valuable evidence towards the EAL competence qualification.

Contents:

- Current Legislation And Regulations (Including LOLER)
- British Standards
- Document Preparation
- Document Control
- Methods Of Thorough Examination
- Methods Of Proof Load Testing
- Manufacturers' Guidance
- Manufacturing Processes
- Practical Exercises

Pre-requisite
for the
NSL/EAL
Competence
Programmes

Structure: This course is aimed at delegates who are employed in the lifting equipment inspection industry, or company personnel who are involved in the control and/or co-ordination and purchasing of lifting equipment. It would also be beneficial to those who have no previous experience or have experience but require refresher training.

Details: This course is usually delivered at an NSL Training Centre, but can be delivered at a client's premises.

Course handouts: The International Rigging & Lifting Handbook and Inspection Procedures.

PPE required: Coveralls, hard hat, safety boots and gloves.

Note: Successful delegates can continue their development with the new NSL / EAL competence programmes for Lifting Equipment Inspectors. On successful completion of these programmes, delegates will be awarded with Certificates of Competence for the various modules by the national award body, EAL.

Who will benefit: This course is aimed at delegates who are employed in the lifting equipment inspection industry, or company personnel who are involved in the control and/or co-ordination and purchasing of lifting equipment.

Module 1 of the inspector competency programme must be completed prior to attempting the competency programme for this module.
